ABOUT PLEIJSIER HOTELRENOVATIE

Pleijsier Hotelrenovatie focuses on the renovation and conversion of existing hotel buildings or the finishing of new hotel buildings of national hotel chains. The starting points for these projects are modernisation, sustainability and future-proofing. Pleijsier Hotelrenovatie combines two of its strengths here: the qualities and knowledge in the field of product and process thinking and the years of experience in the implementation of large-scale renovation projects.

The result: a satisfied customer and the renovation carried out in accordance with the agreements made, within budget and in a good time frame. At Pleijsier Hotelrenovatie, a critical eye for detail always plays a major role. This is due to the fact that Pleijsier Hotelrenovatie is often supported by its sister company Palet Vastgoedonderhoud for finishing work. In addition to a meticulous finish, this collaboration also offers the possibility of carrying out the entire plan. Pleijsier Hotelrenovatie builds warm relationships through long-term partnerships and good contacts.

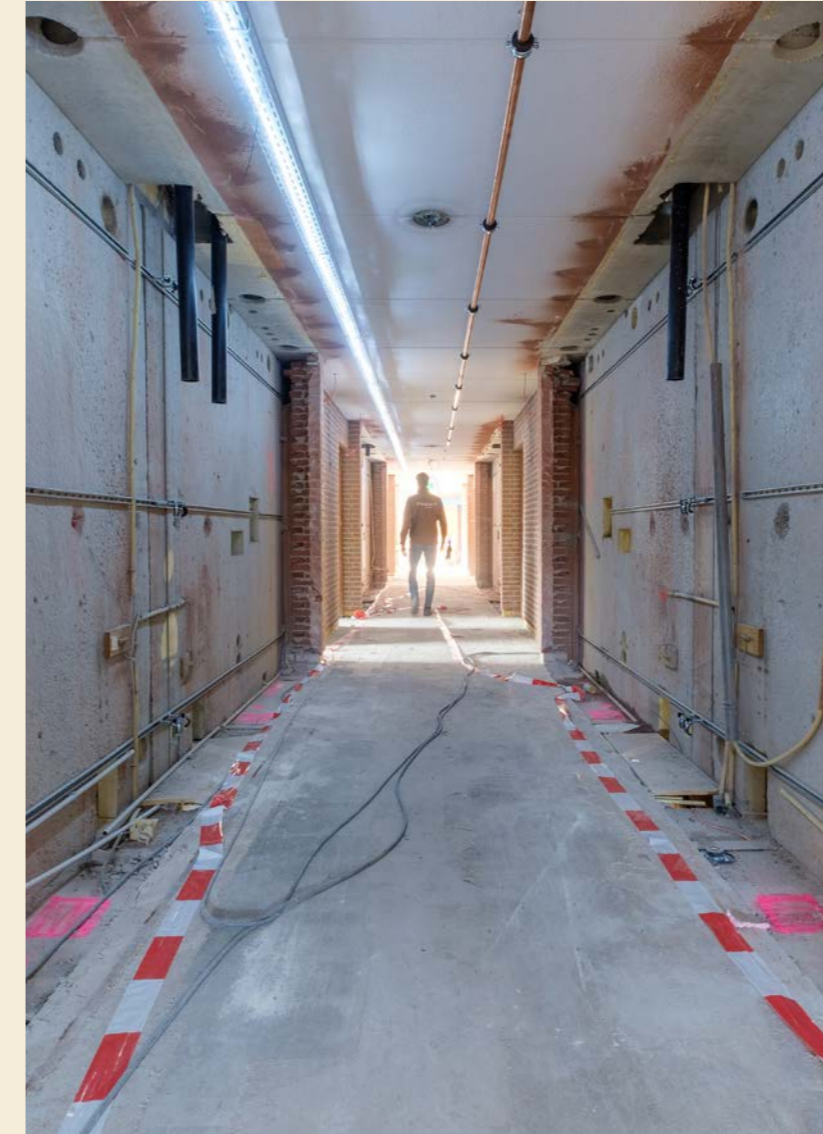

Pleijsier Hotelrenovatie is about more than just the end result

Throughout the entire process from start to finish, Pleijsier Hotelrenovatie will be happy to help you come up with ideas regarding the details of the collaboration and the execution of the work. You will see that we are 'Pleijsurable' people to work with! Why? Because our down-to-earth and modest mentality is based on long-

term relationships with our partners and a transparent and open communicative way of working. We are a professional partner with numerous referrals and expert knowledge. In this way we are able to deliver tailor-made solutions where others cannot, partly due to the experience and knowledge of the market parties.

The current rooms are somewhat dated and could need a refurbishment. But what if the furniture is not yet due for replacement?

ONE DAY RENOVATION

Then One Day Renovation is for you! Clear agreements and tight planning form the basis of this unique concept, in which we provide a hotel room with a completely new look and feel in just one day.

A very sustainable alternative, since the existing furniture is preserved.

Choose a colour from the One Day Collection

Choose a floor from the One Day Collection

The renovation team gets to work

24 H

The walls are painted

The floor covering is laid

Especially for this concept, we have launched the One Day Collection. From this collection, you choose a wall colour, floor covering and possibly window decoration and our One Day specialists get to work.

The existing furnishings are stored in the agreed space. We work with a permanent team of maintenance specialists, so you know where you stand.

Is the room ready? Then we put all the furniture back and redecorate as required, so that your guests can once again enjoy an unforgettable stay.

And all that in just one day!

Pleijsier Hotelrenovatie

Pleijsier Hotelrenovatie has renovated numerous hotels during its long existence and is proud of all its completed projects.
